British Columbia supports four newspapers, the STANDARD, Colonist-Chronicle. the Cariboo Sentinel, and the Mainland Guardian. Of these four the three last have done all in their power to make it Will Sell on the premises lately occupied appear that the "Permanent Civil List by J. W. KEYSER, next door to Crow-Act," the offspring of the expiring Family ther's Paint Shop, Compact, is the proper thing. If those journals were taken as exponents of pub. lie opinion, no doubt could exist as to the propriety and wisdom of that measure, and that Helmeken, Carrall & Co. were benefactors to their country. It so happens, however, that the Colonist-Chronic's has been openly voted down at a public meeting in Victoria,—or in other words, that a public meeting, presided over by the Mayor, has unanimously repudiated the author of the Civil List Act, Dr. Helmcken, as well as the sheet Furniture, Tinware, in question that acted as his apologist.

Although some considerable time has elapsed since that meeting came off, yet not the slightest change in public sentiment is visible. Everywhere throughout this city, the feeling is adverse to keeping an act on the statute book that take the lawful and constitutional control over public purse from the Assembly and puts it in the hands of the Gov ernor. When we turn to New Westminster, we find that the Guardian, ofter delivering itself of its Helmckenian editorials in favor of the Civil List Act. has had to cry "Peccavi", and draw in its horns, public opinion in that city, in Burrard Iulet, and throughout the District, being opposed to saddling sixty officials on the country who can only be removed when pensioned. Two chief centres, then, of the Lower Country are opposed nearly unauimously to Helmcken and Carrall's pet measure. If we go up wards towards Cariboo, we everywhere find the Civil List Act condemned, and its authors execrated. Public opinion in Yale, Lytion, Bonaparte, Lillouet, and Southwards to Kamloops and Kootenay, is clearly and unmistakably against it. At Cariboo however, we find the Sentinel supporting what all the rest of the country condemn It sneers at the people all through the Colony for striving to retain a constitutional control over the Executive. From a journal published among the freemen of Cariboo, we naturally expected, the most outspoken utterances in favor of maintaining the rights of the people.
But strange as it may appear, the Sentimel has supported Dr. Carrall in violating his pledged word with the citizens of Cariboo on Responsible Government, and now sustains his vote on the Civil List Act. We have the best authority for stating that its utterances on those two subjects are repudiated by the people of Cariboo district, and if we are cor rectly informed at last advices a public meeting will soon give expression to the public opinion of Cariboo, and show that it is one with Victoria and the rest of the country in its opposition to the Helmcken-Carrall Civil List Act. Along the East coast of the Island-throughout the farming districts around this city, in Nanaimo in Comox,—everywhere, there is but one general opinion, and that one condemuting Helmcken-Carrall & Co. for placing sixty officials beyond the control of the Local Assembly,-unless the Legislature shall first agree to buy them off with a pension. No measure for a long time has been so much and so universally detested by the country as the Civil List Act; and now that the time has come for the people to register their rotes, let them do so, in order to place men in the Legislature who have no affinity with the authors and supporters

of this obnoxious measure. THE TROUBLE IN FRANCE.-The manufac. meles of France having been, to a great extent, destroyed by the late war, and in the extent, destroyed by the late war, and in the present democalized state of the country, much difficulty being experienced in obtaining first-class French s.lk goods, they are consequently rapidly rising in price. A large purchase was, however, made by Messrs, J. P. Tunstall & Co., of London, previous to the late rise; they are from the celebrated factory of C. J. Bonnet & Cie., of Lyons, the very best makers in France, whose name is conbest makers in France, whose name is con-sidered, both in Europe and America, a guarantee for extra quality. THE TRUTCH DINNER .- The Colonist officeseekers during and since the session of 1870 bave taken to white-washing Mr. Jo. Trutch. The editor of that sheet, then member for New Westminster tried it on in the Council in that year ; but he was most unmercifully subbed by Messrs, Trutch and Crease. Bu the spanier is a very queer animal indeed for it will lick the hand of those who cuff it and will do so in the fervent hope of getting a stray ration from its mast r's crib. True to their programme the Colonist office-seekers inspattered Mr. Jo Tru ch with the mos ome and undeserving praise before his deft the last time for Canada, -and tried get up a public dinner in his honor but i. proved a failure and very properly too. If it had come off, there might possibly have been a baker's dezen in attendance, -of whom the majority would have been obed ent official's The proposed Trutch dinner was as ridiculous a lailure as the testimonial that the Colonis folks wanted to get up for Judge Needen after he had given an unfashion ble dianer yesterday morning, sue will return this to its editorial staff. But to wriggle out of the predicament into which the office seekers of the Colonist got Mr. Jo. Truich it yesterday broughout the names of a so-called Committee, Mr. Robertson, Mayor, Mr. Ward, Bank Manager, and Mr Siewart, who invited Mr. Trutch. Now we take occasion to say that neither one of these gentlemen represented on that occassion either the views of the people of this city or country; and no-man knew that better than Mr. Jo. Trutch, -or else he would have accepted the invitation.

THE GAZETTE OF SATURDAY, contains the ap. pointment of E. G. Alston, Esq., and H. S. Mason, Esq., to act as Attorney General and Registrar General respectively, for the Colony of British Columbia. The following notice also, is published for general information: The Secretary of State to Governor Musgrave.

Downing Street, 19th Jan., 1871. Sin .- I have the honor to acknowledge the receipt of your Despatch of 17th November, No. 147, in which you review the future posi-tion of the present Civil Officers of British Columbia, in so far as they will be affected by the Union with Canada of the Colony

under your Government. I concur generally with the views expressed in this Despatch, and you are at liberty to in-form the Civil Officers of British Columbia that their acceptance of employment under the Canadian Government will not preclude their applying at any future time for other employment under this Department, nor will it afface any claim to such employment which

they may derive from their character and past services, I have, &c.

The Montreal Board on Foreign Trade.

The annual report of the Montreal Board of Trade for the past year contains the fol-lowing suggestive paragraph on the subject of "Foreign Trade": —"In relation to foreign trade, the Council are of opinion that it can be immensely extended. The increase in the export of sawn lumber to South America from 728,000 feet in 1867, to 25,000,000 1870, is only the commencement of a trad which will become very large. Australia imported from the United States, in 1869 goods amounting in value to nearly five millions of dollars, most of which could be as cheaply furnished by Canada. One-fifth of these exports consisted of sawn lumber and other wood goods, which can be sent from other wood goods, which can be sent from the St. Lawrence, to better advantage. The export of ice from the northern ports of the United States amounted in value in 1869, to \$279,028. A beginning will soon be made in in an export from the St. Lawrence; but there is no reason why this trade should not be carried on wors leventy from the Chill Ports. carried on more largely from the Gulf Ports, or from the sea board of Nova Scotia and New Brunswick. The trade to the British West Indies might be vastly increased. Of the half-million barrels of flour and meal imported annually into these possessions, British North America only sends about twelve per cent. Every effort should therefore be made to establish a line of steamers between the St. Lawrence and the West India Islands, carrying mails, and sailing regularly. Such an arrangement could not fail to build up a large and profitable trade to the St. Lawrence during the period of navigation, and to St John or Halifax in winter; nor should the Govern ment hesitate to aid by a subsidy for a period of years the establishment of such a line.

PR. CHING FUN-A CARD-EDITOR
STANDARDI-Through the medium of your
paper I want to state the very great good that has oten
done me by Dr. Ching Fun of this city, nxet door Kwong
Lee & Co. For 24 years I suffered with neuralgia on
the brain, which baffied the skull of three first-class
American physicians. Latterly bronchitis attacked my
right lung, and my eyes became awfully inflamed. Des
pairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months
treatment I am a well man and feel that I cannot sound
the eminent Chinose gentleman's praises too loudly, so
that all my countrymen similarly affecteed may visit
and find relief, Respectfully,
